

Front End Developer (Mid – BG)

WeTrack helps sports, events and venues all over the world to deliver better events and operations. The industry-leading platform facilitates different aspects of complex operations, including Project and Risk Management, Sustainability Tracking, Readiness and Checks, Run Sheets / Daily Schedules, and Incident Management, and is used by global brands such as FIFA, IOC, ICC, Wimbledon, Expo 2020 Dubai, FIA, Ascot Racecourse, and many more.

WeTrack is a critical operational tool for its users and providing an attractive, efficient front end application is essential in ensuring positive user experience and engagement. Now we are looking for a Mid Level Front End Developer to help make that happen by bringing valuable experience in developing Angular components and the wider front end application. This role will offer the chance not only to play a central role in design planning and front end strategy, but also to be involved in wider development and tech strategy for the company.

Requirements

- At least 2 years' previous work experience as an Angular Developer
- Experience with CSS/SCSS, HTML, and writing cross-browser compatible code
- Experience using a responsive framework such as Bootstrap
- Experience with Typescript
- Solid understanding of agile development process
- Experience with issue tracking systems
- Very good command of English
- Sharp attention to detail
- Strong analytical and problem-solving skills
- A team player with communication skills and a healthy desire for collaboration
- Proactiveness and creativity

Responsibilities

- Designing and developing user interfaces using Angular best practices
- Ensuring high performance on mobile and desktop
- Git knowledge and understanding branching strategies
- Ability to collaborate and inspire team members

Nice to have

- Experience in testing frameworks
- Experience in Capacitor/ Ionic Framework

What we offer

- Competitive salary
- Company share option scheme
- Challenging project and the chance to work with cutting edge technologies
- Dynamic, friendly, international working environment
- Standard working hours
- Choice of working from office in Sofia or remote

- Knowledge sharing and mentorship
- An access to an online education platform
